

NORTH REGION LAND STEWARD JOB DESCRIPTION

SUMMARY

Feather River Land Trust (FRLT)'s Land Stewardship Program entails the management, monitoring, and restoration of lands and waters that FRLT has protected. The land stewardship program works on our conserved lands to maintain, restore, and enhance the overall health of the land, and other publicly important conservation values like public access, historic buildings, and cultural resources.

The North Region Land Steward works directly with and is supervised by the North Region Manager to implement land stewardship activities within the Northern Region (American Valley, Indian Valley, Genesee Valley, Lake Almanor Basin, Mountain Meadows Basin) to ensure the conservation of Preserves (Leonhardt Ranch Learning Landscape, Heart K Ranch, Olsen Barn Meadow and the Mountain Meadows Gateway Property) and other protected lands.

JOB DUTIES

1. Assist in the implementation of land stewardship activities on FRLT preserves
2. Vegetation management on FRLT preserves
3. Assist with livestock operations and grazing activities
4. Property patrol and routine completion of patrol logs
5. General clean up on all FRLT preserves
6. Construction and repair of fencing infrastructure
7. Inspection, maintenance and cleaning of buildings/structures, inside and out
8. Documentation of observed public uses and issues encountered on FRLT preserves
9. Identification and removal of trip and fall hazards (e.g. antiquated range fencing, downed tree limbs, debris)
10. Assist in monitoring activities in support of Conservation Easement program
11. Data processing, including the use of GPS, trail/game cameras, tablet computers and digital cameras
12. Respond to incidents involving FRLT lands during regular business hours, afterhours and on weekends
13. Serve as support person planned vents in the watershed
